

The advantages of nTAKE Pro

1 Supports up to four full HD screens

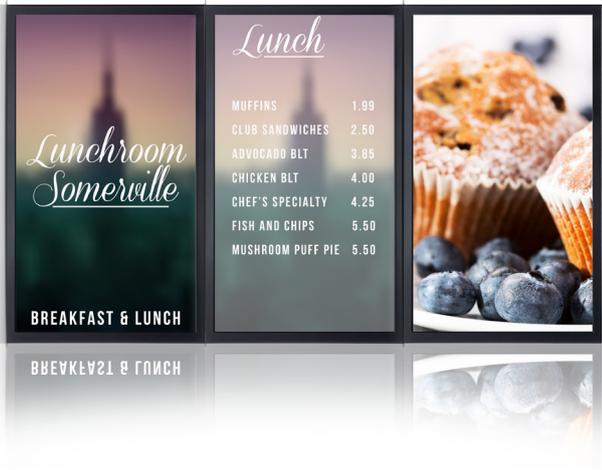

The AOPEN nTAKE Media Player is powerful enough to support up to four Full HD screens, which can be viewed in either landscape or portrait. With the possibility to add multiple screens to your pallet the nTAKE Pro takes your in-store communication to another level.

2 Enhance customer engagement

nTAKE Pro allows you to simultaneously show the consumer the most recent offerings and the daily menu. With the ability to create appealing and relevant content from the many prebuilt templates, the nTAKE Pro solution attracts and informs customers when needed.

3 Control content from a single location on demand

nTAKE comes with a powerful content manager, allowing owners to engage with customers while providing the best return on investment. Update menu items and price changes across multiple screens in different locations. nTAKE allows you to control and update your screens via the internet, ensuring brand consistency and content management from any place in the world, to all locations.
