

## UCD

### The lightweight and spacious universal drawer

The lightweight universal drawer is not only easily installed on the counter, but can also be installed under the counter with two mounting brackets.

The cash insert is easily removed and folded as a closed system for safe transport to the back office. It can be secured with a security lock. Due to its compact size, the folded money tray can easily be stored in the safe.

The variable money insert can be individually adapted. It has 4 note compartments and 8 coin cups as standard. If required, 2 coin cups can be combined to form a 5th note compartment. By adding further separators, the remaining 6 coin cups can be increased to 8.

It offers you unrivalled functionality at the POS, is user-friendly, versatile, and sturdy. Its high-quality plastic housing is also lightweight and robust. The UCD is also absolutely reliable for heavy use.

#### UCD at a glance

- > Cash drawer insert is a closed system
- > Ball bearing mounted runners
- > Money insert individually adjustable
- > Sturdy and lightweight plastic housing
