

- Fastest single-station printer available today
- Interface cover included in the box
- Star serial port emulator
- Simple kiosk integration
- Stand alone queuing system
- Buzzer, vertical mount and PoweredUSB version are optional

TSP700II Series - The Best Just Got Better!

50% faster speed, higher print resolution for graphics, 50% longer print head life, 100% longer autocutter life and an even sleeker look, that's the new TSP700II from Star Micronics.

Building on the industry success of the TSP700 from Star Micronics, with a print speed of 53 receipts per minute (250mm/sec), the TSP700II is the fastest single station printer on the market. Star has added double resolution mode to increase sharpness to any graphic! Eye catching graphics for company logos and/or coupons are a print away.

Its' improved and sleeker design features a new top cover which extends to the edge of the printer making it more difficult for dust and liquids to penetrate and harm the printer. In addition to the extended cover, sound and vibration dampening channels within the printer, help reduce printing noise and also add an extra layer of protection from moisture or dust when used in harsher environments.

The TSP700II ships complete with interface cover, wall mount kit, power switch cover, start-up roll of paper and a CD that features drivers and *futurePRNT* software.

The TSP700 is ideal for high-volume retail establishments like grocery stores, healthcare, banking, and restaurants.

To prove Star's full confidence in this ultra reliable printer, Star is offering the best warranty in the industry: a complimentary three year Extend-A-Star bumper to bumper warranty.

Always Leading - Always Innovating

The Complete POS Solution!		
<h2>Features</h2>	Hardware <ul style="list-style-type: none"> - Ultra fast (53 RPM) - Ultra reliability (2 Millions cuts) - Spill proof design - Dust proof design - Clamshell design - Small footprint - Lightweight - 2-color capable - Choice of Putty or Gray color housing - Swappable communication interface - Rear open slot available for large paper roll. - 2D barcode printing (PDF417- QR code) - Printer reliability and maintenance counter 	Software (included in Windows™ Drivers) The included Receipt Redesign Software allows you to EASILY : <ul style="list-style-type: none"> - Add images (Logos, Coupons, Merge Images, and more!) - Add key words to trigger coupons or vouchers - Replace text - Create a Virtual Serial Port for legacy applications - XP and Vista WHQL Certified Also Included: <ul style="list-style-type: none"> - Ethernet setup utility - Memory switch utility
